## ABOUT ME

A 3rd-year student in Digital Technology and Innovation at Southeast Asia University, passionate about Web and Mobile Application development with a strong interest in AI. Proficient in Full Stack development, eager to learn new technologies, and seeking an internship opportunity.

## EDUCATION

Southeast Asia University  
2023 - Present | GPA: 3.40

## MORE INFO...

Scan QR code for more information, including GitHub and Portfolio.

## SKILLS

### Programming Language

- JavaScript
- TypeScript
- Dart
- Python

### Database

- MySQL
- Postgresql
- Firebase
- Supabase

### Framework

- React
- Nextjs
- Vite
- Flutter
- React Native
- Tailwindcss

## CERTIFICATE

- Microsoft Office Specialist (MOS) - Associate  
Achieved through MOS Olympic Thailand Competition 2024
- ICDL THAILAND 2024  
Application Essential and AI, Southeast Asia University
- Information Technology passport Examination 2024  
ITPE - IP | NSTDA, Southeast Asia University

## EXPERIENCE

- บริษัท มายด์ ซอฟต์แวร์ ดีเวลลอปเม้นท์ จำกัด Oct. - Nov. 2565  
Use C#, Blazor, and .NET for Backend Web Development.

## PROJECTS

### Food Tracker [Nextjs]

- Implemented secure login and session handling using Supabase Auth.
- Developed a dynamic dashboard to display and calculate real-time nutritional totals based on individual user data.
- Designed a complete system to Create, Read, Update, and Delete food data, integrated with a PostgreSQL database via Supabase Client.
- Implemented route guards to secure the Dashboard and Profile pages, ensuring access only for authenticated users.
- Created a profile management system allowing users to update personal information and set specific nutritional goals.

### Run Tracker [React Native]

- Implemented secure login and session handling via Supabase Auth.
- Developed a running activity tracking system with seamless Supabase Real-time database integration.
- Integrated Supabase Storage for efficient uploading and management of running route and location images.
- Implemented Expo Image Picker to support in-app camera functionality for capturing and saving running evidence.
